

Brand Guidelines

Version 1

May 2022

Logo

This is the main Burningsuit logo.
It should not be changed or distorted in any way.

Acceptable usage

The logo lock-up comprises of the name 'burningsuit' along with our brand icon. These elements should always appear together. The full colour logo should be used where possible.¹

An exclusion zone² (the minimum unobstructed area around the logo) has been developed to make sure that it remains prominent. The width of the exclusion zone is equal to the width of the 'u' used in the same size font and style as in the logo. Do not allow any text or any other graphic device into the grey 'u' area as indicated.

Ensure the logo has significant contrast to the background so it stands out.

Minimum size³

A minimum width of 30mm is suggested to ensure that the logo is always clear and legible on marketing materials..

White and mono version

The white version of the logo has been created to appear on dark backgrounds as shown.⁴ The logo should always have significant contrast to the background it is placed on.

The mono version should only be used when colour print is not available.⁵

Do not render in any other colours.

Colour

The Burningsuit brand use three main brand colours.

Main brand colours

These are the colours in the logo and should be used for any general Burningsuit materials.

Pantone® 1935, Pantone® 7411 and Pantone® 5115 are used specifically in the full colour logo.

Pantone® 1935
C0 M100 Y59 K8
R217 G1 B72
#D90148

Pantone® 7411
C1 M36 Y65 K1
R243 G164 B76
#F3A44C

Pantone® 5115
C48 M91 Y17 K59
R67 G18 B51
#431233

Supporting palette

The supporting palette is made up of tints of the main colour palette.

C0 M0 Y0 K15
R233 G234 B232
#EBEBEB

C0 M9 Y3 K29
R181 G164 B175
#B5A4AF

Typography

The Buringsuit brand uses two main fonts. Objektiv Mk1 and Bilo. Both of these fonts are available on Adobe Fonts.

Objektiv Mk1 Bold¹

Should be used for all headings to match the logo style.

Bilo Medium

Is used for intro copy and headings within the body copy.

Bilo Regular²

Is used for body copy.

Internal and external powerpoint and word documents:

When Objektiv and Bilo are not available Arial should be used.
